

Practice Sheet

EXERCISE 1 — GHOSTED LINES

Ghost the motion 2–3 times, then commit in one stroke. Connect each pair of dots with a single confident line.

EXERCISE 2 — ELLIPSES AT THREE DEGREES

Draw ellipses fitting the guide axes below. Work loose and fast — aim for smooth, symmetrical ovals.

EXERCISE 3 — ORGANIC VS GEOMETRIC LINES

Left: fill the box with flowing organic curves. Right: fill with precise geometric lines and angles.

EXERCISE 4 — HATCHING VALUE SCALE

Fill each box using hatching only (no blending). Progress from light to dark across the five zones.

Tip: Speed is your friend for lines and ellipses. Slow marks look hesitant. Ghost first, commit fast.
